- TS 48 V
- TS HV 70
- TS-I HV 80

with additional battery modules

**Get maximum storage capacity now!**

Only until  
April 30<sup>th</sup>  
2025!

# DO YOU USE ONE OF THE FOLLOWING TESVOLT SYSTEMS?

TS 48 V

TS HV 70

TS-I HV 80

**Does your storage system require more energy content, e.g. because you have commissioned a new PV system or additional electricity consumers?**

- Take the opportunity to add more battery modules to maximise the storage capacity of your system.
- Battery modules for retrofitting these systems are only available for a short time!  
Please contact your system installer **by April 30<sup>th</sup>, 2025**.
- Replacement modules for any repairs are still available within the warranty period.
- Battery modules for other TESVOLT storage systems are not affected.
